Programming: Java, CSS, HTML, JavaScript, XML, JSON, Kotlin.

Software: MS Office Suite (Access, Word, Excel, PowerPoint, Project), JetBrains Development Suite (IntelliJ IDEA, WebStorm), Adobe CC Suite (Premiere Pro, Photoshop, Audition, Experience Design).

Systems: Linux, Windows.

EXPERIENCE

DENTAL INDEX LIMITED

Web Developer / Nov 2016 – Feb 2017

I was working with this company above a project with name Findentist.co.uk. This project was a really challenge. I had to create three applications. One for the front-end, the other for the back-end and a proxy system. The front-end is a web server that allows the user to have the experience of the project's services. The back-end is working different of the front-end. Is a powerful web server that allows the front-end to take all the data who need to work. The proxy system is a DNS proxy who separate the request by domain and connect them to the target web application (front-end/back-end).

ACTIS CONSULTING LTD

Web Developer / Jan 2017 – Present

I'm working to a project with name Admissarion.com. My responsibility is to create a powerful front-end application to support the regiments of the users. Also, I'm designing the user interface and the user experiences. The hard part of this project is the front-end communication with the back-end application. To make it easy, I have created, with my partners, a simple rest API.

SIMPLE SMALL BUSINESS

Web Developer / Sep 2014 – Jun 2015

Create and sell websites and Android applications. Find more efficient methods to develop our projects. Communicate with other sellers, shopkeepers and clients push our products. Travel to other places and towns to find more clients.

YOUTUBE.COM

Content Creator / Apr 2009 – Present

As content creator, my first competence is to record and edit videos for my youtube channel and my funs. My second competence is to communicate with my funs to keep my channel alive. To edit my videos, I'm using the Adobe Premiere Pro of the Adobe's suite CC. Also, For the thumbnails, I'm using the Adobe Photoshop, from the same suite. My content is about video games and games walkthroughs. Also, I'm making some tutorials for plugin development of a game with name Minecraft. You can find all of those to my youtube channel with name Gamearchons.
